Circumnavigation of Iceland

Cruising aboard the Exclusively Chartered Small Ship Five-Star Le Champlain

July 31 to August 8, 2019
Round-Trip Air Included from Select Cities

Emory Alumni Association
Dear Emory Alumni, Family, and Friends:

Join us for this unforgettable exploration through the untamed beauty of Iceland—a land of fire and ice, where glittering glaciers cap active and dormant volcanoes; Viking ruins coexist with rugged coastline, geothermal baths, mud pools and powerful waterfalls and geysers; and long-lasting daylight melds into the lingering twilight.

During our specially designed, seven-night circumnavigation of this Nordic island nation, experience dynamic contrasts that exist nowhere else on Earth and encounter Iceland’s remarkable scenery at close range. Cruise aboard the exclusively chartered, newly launched, Five-Star Le CHAMPLAIN, able to cruise into small ports inaccessible to larger vessels and to alter course as the wild terrain, ethereal waterways and ever-changing landscapes—formed by mighty natural forces at work—unfold before you.

Look for orcas, humpback whales and migratory birds, including puffins and guillemots; admire steaming geysers and pristine coastal beauty; and touch ice fragments calved from Breiðamerkurjökull, one of Europe’s largest glaciers. Visit Grímsey Island, crossing into the Arctic Circle, and cruise past Surtsey, one of Earth’s youngest and most fragile islands and a UNESCO World Heritage site. Explore the majestic, rocky vista of a former lava lake and marvel at dramatic Goðafoss, the “Waterfall of the Gods.” Discover centuries of mythic lore and epic sagas forged from the land, old and new, and discover the enduring spirit of generations of coastal Icelanders—a close-knit community of people whose resilient character, resourcefulness and love of nature have kept them thriving here for centuries.

Don’t miss this must-see destination and exciting adventure, featuring included round-trip air from Boston, Montreal, New York-JFK, Newark, Toronto and Washington-Dulles, or Low Air Add-Ons for an additional $200 per person from Chicago, Dallas and Minneapolis, or an additional $300 per person from Denver, Portland, San Francisco, Seattle and Vancouver. Enjoy the enchanting splendor and inspiring power of nature in Iceland—make your reservation while space and Early Booking Savings are still available!

Sincerely,

Day 1
Depart the U.S.

Reykjavík, Iceland
Day 2
Arrive in Reykjavík, the world’s northernmost capital. See the idyllic recreational sports area of Laugardalur, where geothermal water keeps an Olympic-sized outdoor swimming pool open year round. Continue to the National Museum for a comprehensive overview of Iceland’s history, culture and heritage. Visit the Lutheran church, Hallgrímskirkja, whose iconic silhouette ascends above Reykjavík’s skyline and whose ridged structure mirrors natural rock formations found on Iceland’s coast.

Pass by the charming houses of central Reykjavík before boarding Le CHAMPLAIN. Please note that the ship’s cruising pattern and direction are dependent on weather conditions and are subject to change.

Vigur Island/Ísafjörður
Day 3
Enjoy the morning cruise to the awe-inspiring Westfjords. On verdant Vigur Island—home to one single farming family and thousands of puffins, Arctic terns, red-footed black guillemots and eider ducks—observe the birds in their natural habitat and see Iceland’s only windmill, built in 1840 to grind imported wheat from Denmark. Visit the country’s smallest post office and enjoy coffee and cakes served by our hosts in their home, the well-preserved, 19th-century Viktoria House.

This afternoon, cruise up the dominant fjord, Ísafjarðardjúp (“ice fjord deep”), of this remote 14-million-year-old region, framed by a dramatic rise of rugged mountains. Near the town of Ísafjörður, visit the open-air Ósvör Maritime Museum, where restored, traditional, 19th-century fishermen’s huts and fishing equipment vividly depict the harsh reality of the lives of generations of Iceland’s fishermen.

Tour Ísafjörður’s Westfjords Heritage Museum to learn more about this remote outpost’s fascinating maritime history.

Attend the Captain’s Welcome Reception on board the ship this evening.

Siglufjörður/Arctic Circle/Grímsey Island
Day 4
Bustling Siglufjörður is a small fishing hub built from the success of the herring industry. Visit the award-winning Herring Era Museum and enjoy a lively, music-filled performance, then sample traditional local herring and Icelandic schnapps.

Return to the ship and cruise to Grímsey Island, which straddles the Arctic Circle. Visit Grímsey Church, built out of driftwood in 1867. Cross the Arctic Circle, the top of the world, where the island is treeless but lush with grasses and mosses. See thriving populations of puffins and auks—waterbirds similar to penguins, but with the distinctive ability to fly.

Explore Vigur Island, where Iceland’s only original windmill, built in 1840, surveys the serene sea.

Jökulsárlón
Goðafoss
Húsavík

Day 5
Explore northern Iceland’s extraordinary natural landscapes, stopping at Námaskarð, a field of boiling, sulfurous mud pots, and the pseudocraters at Skútustaðir, formed when hot lava flowed over the wetlands some 2300 years ago. Walk among the surreal lava formations of Dimmuborgir, the mythic source of Icelandic folklore, and drive along the shores of cerulean-blue Lake Mývatn, a birder’s paradise and a haven for many rare migratory birds and 14 species of Iceland’s bountiful wild ducks.

Continue to Goðafoss, “Waterfall of the Gods.” According to legend, this spectacular waterfall earned its name when an Icelandic chieftain threw wooden statues of his Norse gods into its crashing waters, signifying his conversion to Christianity.

Seyðisfjörður
Day 6
Seyðisfjörður is a tranquil, 11-mile-long fjord that winds toward its eponymous town, where colorful, chalet-style houses shelter beneath Mounts Strandartindur and Bjólfur (Beowulf). Cascading from the heather-covered valley, the Fjarðará River runs through the center of town into the lagoon at the fjord’s head.

Visit the sky-hued Blue Church and observe a specially arranged cultural and musical performance. Continue to the Technical Museum to learn more about the mechanics, communications and architectural innovations that characterize this island nation, and enjoy light refreshments.

Cruise by small boat through Jökulsárlón glacier lagoon among 1000-year-old, marbled and crystalline icebergs.

Land Routing

Sculpted by sulfuric mud springs, Námaskarð’s mineral-rich, desert-toned terrain appears almost Mars-like.

Acrobatic humpback whales inhabit Iceland’s coasts and perform long, complex songs in breeding grounds.

Djúpivogur for Jökulsárlón
Day 7
Enjoy a full-day scenic excursion, with lunch, along Iceland’s east coast with stunning mountain views.
Board a specially designed small boat for a private cruise amid the breathtaking icebergs of Jökulsárlón glacier lagoon, and actually touch the ice that has calved off the outlet tidewater glacier, Breiðamerkurjökull.

Heimaey, Westman Islands/
Cruise along Surtsey Island
Day 8
Arrive at Heimaey Island, part of the Vestmannaeyjar (Westman Islands) archipelago, where the tall cliffs are inhabited by puffins, fulmars, guillemots and other waterbirds.
Stop at “Sprangan,” the craggy cliff where young islanders learn the local pastime of rope swinging; see the ruins of ancient Viking farmhouses dating from A.D. 650 in lushly gullied Herjólfsdalur Valley; observe Heimaey’s largest puffin colony from the precipitous headland of Stórhöfði; and view a timbered stave church, modeled after the medieval Norse style, in scenic Skansinn.
See imposing Mount Eldfell, also known as “Fire Mountain,” where lava fields are still warm to the touch over 40 years after its last eruption, and tour the Eldheimar Museum, which chronicles the fateful volcanic activity of 1973 that created this incredible formation.
This evening, cruise along the coast of Surtsey Island, a UNESCO World Heritage site. Created during volcanic activity between 1963 and 1967, it is one of the youngest islands on Earth and one of the most fragile; scientists continue to carefully monitor and study the evolution of its flora and fauna. Be on the lookout for graceful orcas that frequent the region.
Join your traveling companions for the Captain’s Farewell Reception.

Reykjavík/U.S.
Day 9
After breakfast, disembark and transfer to the airport for your return flight to the U.S.

Reykjavík and the Golden Circle
Pre-Circumnavigation Option
The captivating city of Reykjavík and its surrounding natural wonders are the perfect introduction to Iceland. Visit the famous Blue Lagoon and rejuvenate in the warmth of its mineral-rich geothermal waters.
Tour the Golden Circle—the UNESCO World Heritage-designated Thingvellir National Park; the thundering Gullfoss waterfall; and Strokkur, a natural, erupting fountain geyser.
See a breathtaking panorama from the Perlan Museum and explore the new exhibits, highlighting Iceland’s unique geology and culture. Accommodations are for two nights in the four-star Hotel Borg.

A land of unparalleled geological riches, Iceland is comprised of 4500 square miles of glaciers, 15 active volcanoes, 10,000 waterfalls and 800 hot springs. Born of the monumental forces unleashed during the movement of the North American and Eurasian tectonic plates, and carved out by formidable glaciers and incredible waterfalls, the land is a combination of intense natural energy and veritable calm. The topography of Iceland as we know it continues to evolve, yet many of its landscapes remain nearly unchanged since the first Viking settlers saw them more than 1100 years ago.

During your circumnavigation, see volcanic craters and fissures; watch as bubbling hot springs send steam into the air against a backdrop of Mars-like terrain; encounter snowcapped mountains and black lava desert; and come upon pristine waterfalls, sparkling glaciers and volcanoes capped with ice. Along the coast, Iceland’s characteristic fjords—deep inlets cut into the coastline—chronicle the powerful path of the glaciers. Enjoy these natural wonders, in constant flux as glaciers calve and shift and new mountains emerge from volcanic lava flow. A startlingly beautiful portrait of the Earth’s history and progress, Iceland is a raw, primordial landscape hewn by the forces of fire and ice.
